I have 14 years of experience mostly in B2B tech, and I'm passionate about using technology, data, creative storytelling, and a deep understanding of customer's problems to drive business growth.

Experience

Program Manager Consultant, Marketing Content Taxonomies Standardization • 02/2023 – 06/2024

Dell Technologies Remote

Responsible for standardizing content taxonomies and metadata across 12+ marketing applications to simplify content creation, improve content findability, and generate new content insights.

- Developed program strategy and plan, aligning with VP and 20 directors across Dell.
- Created and led a Governance Council and program working team, aligning on proposed taxonomy tenets and driving approval for several taxonomies.
- Worked with IT and business stakeholders on requirements and deployment of standardized taxonomies on Adobe DAM and content workflow applications.
- Expanded scope to align with Support and eCommerce organizations on standardized taxonomies.

Product Manager Consultant, Conversational Experiences • 03/2021 – 02/2023

Dell Technologies Remote

Managed dell.com's B2B sales live chat, inbound phone, AI-assisted chat bots, and web CTAs, partnering with other PMs, marketing, IT, and sales to improve customer and sales outcomes.

- Increased sales leads rate by 21% and business pipeline by 17% to \$102M/year, by using a mix of AI-assisted chat bots, and launching experiments on chat design, web CTAs, and the Contact Page.
- Reduced manual sales work by automating 90% of the lead-creation process, integrating it with SFDC.
- Saved \$250K annually in vendor costs and improved customer and sales satisfaction by owning the B2B portion of the unification of the sales chat experiences.
- Increased B2B pipeline in Mexico by 8x year-over-year by designing, launching, and optimizing Dell's first local WhatsApp chatbot.

Product Manager Sr Advisor, Inbound Sales Chat • 11/2017 – 03/2021

Dell Technologies Remote

Managed dell.com's B2B sales live chat and web CTAs, including the customer and sales agent experience, owning the relationship with marketing, sales, and IT.

- Increased sales productivity by 6% and customer satisfaction by 36% by using data insights and experiments by improving flow for chat users with support and consumer sales needs.
- Developed strategy to consolidate the consumer and B2B chat experiences, using internal data and insights from the redesigned post-chat customer survey.
- Improved performance by 12% by redeploying chat across the site, in collaboration with developers.
- Standardized reporting and defined new KPIs, improving visibility into chat performance & opportunities.

Social Media Manager, Advisor • 07/2015 – 11/2017**EMC Corporation** Remote

Managed the emc.com social experience for top events and strategic content.

- Grew traffic to emc.com from organic social by 4x by developing and coordinating the implementation of social link previews (Open Graph) for all new and strategic pages.
- Drove 65K visits to emc.com and 40K social engagements from 100K employee social shares by creating EMC's first global employee social advocacy program.
- Increased awareness of and engagement with EMC's top events' content with live tweets/blog and photography, managing UGC, and digital Q&As with execs, while also increasing social traffic to emc.com.

Social Media Manager, Sr Analyst & Analyst • 06/2011 – 07/2015**EMC Corporation** Santa Clara, CA and Hopkinton, MA

Owned EMC's corporate-level social accounts, managing strategy, content, engagement, proposed content by other social managers; and co-created EMC's internal paid social agency.

- Grew EMC's corporate-level social audience by 4x and engagement by 6x by developing a new content editorial model based on news publications' content practices.
- Co-created EMC's first paid social media program, working with marketers on content best practices, audience targeting, and campaign reporting.
